About Us

Dash Training is a corporate training subsidiary of Dash Group, founded in 2000 in New Jersey, USA to inspect and evaluate the technical condition of oil and gas plants and related industries.

Dash Group global presence allows Dash Trainings to truly understand local and international clients' needs, business and individual goals, and our internationally experienced and certified trainers, coaches, and consultants makes us unique.

Our customized and up to date content with simulations, case studies, and pragmatic approach help our clients to become expert in using latest tools and techniques, get knowledge and ready to implement from the very next day.

Our local and internationally recognized accreditations, affiliations, certifications and certified experienced instructors confidently deliver the programs all around the globe through Classroom- Face to Face, Virtual live online and blended ways depending on the clients and course requirement.

"Transforming Workforce to Meet Future Needs..."

Our Values

Vision

Committed towards excellence through trainings and technology.

Mission

Our mission is to bring real changes in clients' workforce, satisfy and excel the performance and meeting the clients' goals at highest standard in every piece of training, information and service.

Our Philosophy

We Listen

We pay sheer attention to our clients' needs, goals, & actively listen them.

We Customize

The process is simple: Find the right solution and buy off-the-shelf course with little customization or we curated completely customized content to shift towards excellence.

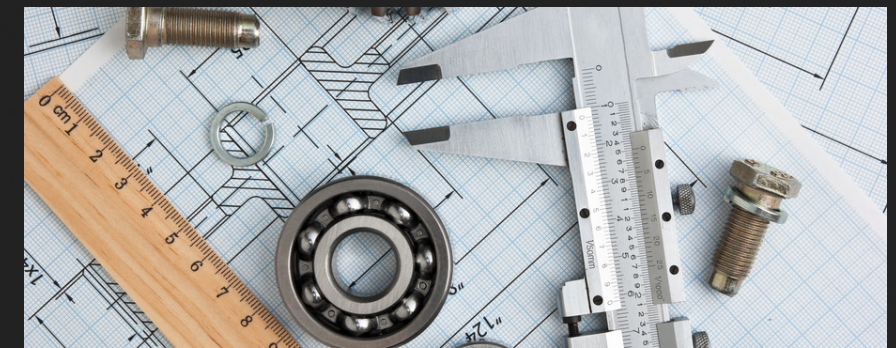

We Deliver

We believe in transformation of workforce through real-world trainings as we deliver programs with measurable results.

TRAININGS**

**F2F- FACE-TO-FACE
CLASSROOM TRAINING**

**IN-HOUSE
TRAINING**

IN-HOUSE COURSES

Off-the-Shelf

Flexible: Time, Venue & Content entirely up to client.

Customized

Cost- Effective with Maximize ROI.

Be-Spoke

Adaptable: Select Trainer & get goal oriented trainings.

ADDIE- INSTRUCTIONAL DESIGN METHODOLOGY

1. Analyze

A Stage One

Analyze the current situation, do quantitative gap analysis, it helps our trainers to identify learning goals and objectives.

2. Design

D Stage Two

Based on Analysis phase, we design the best fit learning experience; content, assessments, tech tools, instruments, media etc.

3. Develop

D Stage Three

We develop the customized program which satisfied your needs, and objectives in terms of content, timeline, logistics and tools.

4. Implement

I Stage Four

We deliver the training program onsite/virtual and completely facilitate throughout the training program.

5. Evaluate

E Stage Five

We apply Kirk-Patrick evaluation Method:
1. Reaction
2. Learning
3. Behavior
4. Business results and ROI

SOME OF OUR CLIENTS

CERTIFIED PROGRAMS

American Purchasing Society

The American Society for Nondestructive Testing
